PROJECTS

Givify | Software-Mobile Application, MySQL, HTML, CSS, JavaScript

07/2024 - current

- Developed and implemented the GIVIFY project, a charitable giving platform aimed at simplifying donation processes for users and organizations **to showcase skills, projects, and achievements with an emphasis on user experience..**

Real Time Eye-Tracking | OpenCV, Pygame, Java Programming, MySQL, HTML, CSS, JavaScript.

- In this project we used Artificial Intelligence to detect the eye movement of a person who is appearing for a proctored examination using Python. We set co-ordinates using which we track the eye movement of the candidate. .
